The Blue Stone

by

Neil Williams

As a young boy, Gordon Plummer went on a camping trip with his parents. While camped near a clear Colorado creek, he found a blue stone. As children do, he kept the blue stone in a box, along with other oddities he accumulates as a boy—where it stayed for years, the old cigar box a source of fond childhood memories.

Years later, now a husband and father, Gordon finds his world torn apart by divorce. His life in shambles, he searches for anything that can bring him peace and a sense of stability. One day, while searching through that old cigar box, Gordon finds the odd blue stone he stashed there so many years ago. Gordon soon discovers that the blue stone has inexplicable properties and powers that can change the direction of his adult life.

Teaming up with struggling contractor, Scott Brady, Gordon learns more about the value of honesty and commitment. He also learns that when tragedy befalls a friend, it can be every bit as painful as if it happened directly to him.

There are traps and pitfalls along the way, set by unscrupulous politicians and overly ambitious businessmen who learn that somewhere, somehow, there are traps made especially for them as well.

Through adversity and challenge, Gordon learns that true friendship is the most powerful force in the universe and that those he loves most truly do love him in return.
